INDEX OF ABSTRACTS OF TUBERCULOSIS

Abdominal compression in treatment of pulmonary tuberculosis, 2
—— tension and pulmonary function, 48
—— tuberculosis in childhood, 31
Absorption of tubercle bacilli through digestive mucosa, 55
Acetone, methyl and, extracts and tuberculin, Effect of, upon atypical acid-fast bacillus, 68
Acid, Phosphatide, and production of tuberculous granulomata, 58
——, silicic, colloidal, Tissue changes from, 11
Acid-fast bacillus, atypical, Effect of methyl and acetone extracts and tuberculin upon, 68
—— ——, R and S forms of, from leprous lesion, 66
Actinomycetes from soil, Pathogenicity of, 42
Action, Bronchoconstrictor, of adrenalin, 49
Active tuberculosis and schizophrenia, 39
Acute empyema, 9
Adrenalin, Bronchoconstrictor action of, 49
Adult type, Experimental early pulmonary tuberculosis of the, 52
—— —— tuberculosis, From childhood infection to, 29
Adults, First-infection tuberculosis in, 23
After-care of tuberculosis in London, 3
Ajo, C. Elimination of tubercle bacilli by way of intestinal tract, 55
Alexander, J. B. Prognosis of early pulmonary tuberculosis, 17
Allantoin treatment, Maggot and, 3
Allergic, normal, and desensitized guinea pigs, Dissemination of tubercle bacilli in, 71
—— response following inoculation with oil vaccines, 70
Allergy in guinea pigs following inoculation of dead tubercle suspended in oils, 70
Alpe, F. T., and Ruddock-West, T. Tubercle bacilli in milk by culture, 63
Alveolar epithelium, Pulmonic, 45
Amyloidosis, Recovery from, 16
Ananiades, B., and Papanarghyrou, N. Tubercle bacilli and Bang's bacilli in dairy products in Salonica, 44
Antibodies, Hypersensitiveness and, in tuberculous rabbits, 73
——, tuberculosis, Production of, in superimposed infections with Bang's bacilli, 74
Antibody response, Blood sedimentation and, in rabbits inoculated with S and R strains of tubercle bacilli, 60
Apex, Tuberculosis of, 33
Arkin, A., and Wagner, D. H. Primary cancer of lung, 12
Arlong, F., Thevenot, L., and Viallier, J. Organ extracts as culture media for tubercle bacilli, 63
Armand-Delille, P. F. Biological characteristics of two strains of tubercle bacilli from blood of tuberculous children, 67
Asbestosis, 11
——, Squamous-cell cancer of lung with, 12
Atypical acid-fast bacillus, Effect of methyl and acetone extracts and tuberculin upon, 68
Avian tubercle bacilli in lymph nodes of cattle, 43
—— —— ——, R and S dissociates of, 67
—— —— ——, rabbits immunized and reinfected with, Splenectomy in, 74
Avirulent tubercle bacilli, Response to, 56

Bablet, J., Ducourtrioux, M., and Bloch, F. Human inoculation with bovine tubercle bacilli, 54
——, ——. See Bertrand, I., *et al.*, 65
Bacillaemia in pulmonary tuberculosis, 62
Bacilli, Bang's, Production of tuberculosis antibodies in superimposed infections with, 74
——, ——, Tubercle bacilli and, in dairy products in Salonica, 44
——, Tubercle, absent in dementia praecox, 4
——, ——, Absorption of, through digestive mucosa, 55
——, ——, and Bang's bacilli in dairy products in Salonica, 44
——, ——, Avian, in lymph nodes of cattle, 43

Bacilli, tubercle, Avian, R and S dissociates of, 67
——, ——, ——, rabbits immunized and reinfected with, Splenectomy in, 74
——, ——, avirulent, Response to, 56
——, ——, bovine, Human inoculation with, 54
——, ——, ——, Isolation of, 64
——, ——, Differentiation of, 62
——, ——, Dissemination of, in normal, allergic and desensitized guinea pigs, 71
——, ——, dissociated, Lesions produced by, 61
——, ——, Elimination of, by way of intestinal tract, 55
——, ——, —— ——, in rabbits and guinea pigs, 55
——, ——, in dairy products, 43
——, ——, —— milk by culture, 63
——, ——, Intracerebral inoculation of, as a standard method, 51
——, ——, —— inoculations of, for type identification, 65
——, ——, Mutations of, 67
——, ——, of reinfection, Delay of dispersion of, 71
——, ——, Organ extracts as culture media for, 63
——, ——, S and R strains of, rabbits inoculated with, Blood sedimentation and antibody response in, 60
——, ——, Survival of, 65
——, ——, two strains of, from blood of tuberculous children, Biological characteristics of, 67
——, ——, virulent, Reinfection with, in guinea pigs treated with S variant, 60
Bacillus, acid-fast, atypical, Effect of methyl and acetone extracts and tuberculin upon, 68
——, ——, R and S forms of, from leprous lesion, 66
——, tubercle, Morphological changes of, 66
——, ——, Polysaccharides of, 66
——, ——, silica and, Lesions produced by, 57
Balance, Vagosympathetic, and tuberculosis, 47
Bang's bacilli, Production of tuberculosis antibodies in superimposed infections with, 74
Bang's bacilli, Tubercle bacilli and, in dairy products in Salonica, 44
Bardswell, N. D. After-care of tuberculosis in London, 3
Basal metabolism in tuberculosis, 32
Bashford, H. H., and Scott, W. L. Tuberculosis and survival in British postal service, 27
Beach, B. A. See McCarter, Janet, *et al.*, 43

Bethune, N. Maggot and allantoin treatment, 3
Bilateral spontaneous pneumothorax, 8
Biological characteristics of two strains of tubercle bacilli from blood of tuberculous children, 67
Birkhaug, K. E. Dissemination of tubercle bacilli in normal, allergic and desensitized guinea pigs, 71
Blacklock, J. W. S. Tuberculosis in infancy and childhood, 30
Bloch, F. See Bablet, J., *et al.*, 54
——, ——. See Bertrand, I., *et al.*, 65
Bloch, K., and Roulet, F. Phosphatide acid and production of tuberculous granulomata, 58
Blood of rabbits, Tuberculin in, in course of Yersin type of tuberculosis, 69
—— —— tuberculous children, two strains of tubercle bacilli from, Biological characteristics of, 67
—— sedimentation and antibody response in rabbits inoculated with S and R strains of tubercle bacilli, 60
—— viscosity, Red-cell sedimentation and, 20
Bollman, J. T. See Feldman, W. H., *et al.*, 45
Bonafos, M., and Constantini, H. Rupture of diaphragm, 5

Bonanno, A. M. Morphological changes of tubercle bacillus, 66
Boquet, A., and Laporte, R. Reinfection with virulent tubercle bacilli in guinea pigs treated with S variant, 60
Borden, D. L., and Reed, J. A. Eventration of diaphragm, 6
Bovine pulmonary tuberculosis, 39
—— strain, virulence of, Loss of, 66
—— tubercle bacilli, Human inoculation with, 54
—— —— ——, Isolation of, 64
Boynton, Ruth E. See Myers, J. A., *et al.*, 23
Brandenburg, T. O. See Wight, A. E., *et al.*, 42
Bretey, J. See Nègre, L., *et al.*, 54
British postal service, Tuberculosis and survival in, 27
Bronchial cancer, Diagnosis of, 14
Bronchiectasis, Early diagnosis of, 7
Bronchoconstrictor action of adrenalin, 49
Bronchogenic and haematogenous reinfection, Experimental, 53
Bronchography, Serial, in suppurative pneumonitis, 7
Bronchospirometry, 47
Brucella and tuberculous infections, Concurrent, in guinea pigs, 56
Butler, W. J. Reaccreditation of range areas, 41

Cancer, bronchial, Diagnosis of, 14
—— of lung, Early diagnosis and treatment of, 13
——, Primary, of lung, 12
——, Squamous-cell, of lung with asbestosis, 12
Capacity for work in pulmonary tuberculosis, 35
——, Working, of patients with pulmonary tuberculosis, 35
Carbohydrate, Glycerol and, utilization by *M. tuberculosis*, 64
Cardiac output, Measurement of, 49
Carlson, H. A. Acute empyema, 9
Catheter, nasal, Oxygen administration by, 2
Cattle, intracutaneous reaction to tuberculin in, Histology of, 69
Cattle, lymph nodes of, Avian tubercle bacilli in, 43
——, no-lesion, Tuberculin reactions in, 44
——, Tuberculosis eradication in, 41
——, —— —— ——, Results of, 40
Cavitation, Prognosis in pulmonary tuberculosis with, 18
Cells, culture, Persistence of sensitivity to tuberculin in, 68
Cestero, G. R., and Pastor, J. R. Tuberculosis in Puerto Rico, 25
Chaize, J. Vagosympathetic balance and tuberculosis, 47
Changes in lung volume, 50
——, Morphological, of tubercle bacillus, 66
——, Tissue, from colloidal silicic acid, 11
——, X-ray, in lungs of electric arc welders, 9
Characteristics, Biological, of two strains of tubercle bacilli from blood of tuberculous children, 67
Chickens, Susceptibility of, to tuberculosis, 45
Childhood, Abdominal tuberculosis in, 31
——, infancy and, Tuberculosis in, 30
—— infection, From, to adult-type tuberculosis, 29
——, tuberculous infection in, Incidence of, in relation to contact and environment, 29
Children, tuberculous, blood of, two strains of tubercle bacilli from, Biological characteristics of, 67
——, —— infection in, 29
Chronic miliary tuberculosis, 34
Clinical estimation of resistance, 19
Cohen, H. Pulmonary tuberculosis and pregnancy, 36
Cohn, M. L. See Corper, H. J., *et al.*, 20
Collapse, Massive, complicating haemoptysis, 8
College students, Tuberculosis in, 26
Colloidal silicic acid, Tissue changes from, 11
Committee, Veterinary, on tuberculosis, 42
Complete recovery, Miliary pulmonary tuberculosis with, 34
Complex, Primary, in tuberculosis, 47
Compounds, fatty-acid, Effect of, on experimental tuberculosis, 54
Compression, Abdominal, in treatment of pulmonary tuberculosis, 2

Concurrent brucella and tuberculous infections in guinea pigs, 56
Congenital cystic lung, 16
—— heart disease, cases of, Incidence of pulmonary tuberculosis in, 39
Connery, J. E. See Goldwater, L. J., *et al.*, 17
Constantini, H., and Bonafos, M. Rupture of diaphragm, 5
Contact and environment, Incidence of tuberculous infection in childhood in relation to, 29
—— tuberculosis in Negroes, 25
Content, Mineral, of tuberculous foci, 50
Contralateral spontaneous pneumothorax complicating lobectomy, 1
—— spread in pulmonary tuberculosis, 32
Cooke, A. M., and Priestley, J. G. Measurement of cardiac output, 49
Cooke, W. E. Trauma of lung, 5
Corper, H. J., Damerow, A. P., Cohn, M. L., and Vidal, C. B. Vaccination against tuberculosis, 20
Coughing, Fracture of ribs from, 6
Crawford, A. B. Tuberculin reactions in no-lesion cattle, 44
Culture cells, Persistence of sensitivity to tuberculin in, 68
—— media for tubercle bacilli, Organ extracts as, 63
—— of tuberculous sputum, Technique of, 63
——, Tubercle bacilli in milk by, 63
Cultures, tissue, Sensitivity of, to tuberculin, 72
Cutbill, L. J. See Edwards, P., *et al.*, 63
Cyst, dermoid, intrathoracic, Removal of, 14
Cystic disease of lung, 15
—— lung, Congenital, 16

Dairy products in Salonica, Tubercle bacilli and Bang's bacilli in, 44
—— ——, Tubercle bacilli in, 43
Daly, I. de Burgh, Mark, E. G. L., and Petrovskaia, Barbara. Bronchoconstrictor action of adrenalin, 49
